Index Subjects

Agricultural Techniques

Cotton Weeds and Study of a Chemical Cotton Weeding System in Burundi (<i>in French</i>)	6
Study on the Diversification of Farmers' Activities under Demographic and Land Pressure. The Case of Burundi (<i>in French</i>)	17
Comparison of Different Pesticide Treatments of Cotton Seed in Burundi and in Greece (<i>in French</i>)	45
Influence of the Browse Plant <i>Gliricidia sepium</i> Supplemented with Concentrate Feed on Food Intake and Growth of West African Dwarf Goat Kids (<i>in English</i>)	85
Influence of Staking on Tuber Yield of <i>Psophocarpus tetragonolobus</i> (L) D.C. at Bunia - Zaire (<i>in French</i>) ..	168

Animal Health

Larvivorous Potential of Different Stages of <i>Culex tigripes</i> (Diptera, Culicidae) in the Prospective of its Use in Biological Control of Malaria Vectors (<i>in English</i>)	13
Observation of an Outbreak of Equine Trypanosomiasis due to <i>Trypanosoma vivax</i> in urban environment in Senegal (<i>in French</i>)	35
Prevalance of Gastro-Intestinal Parasites and Snail Inventory in the High- Plateaus of Uvira, Eastern Zaire (<i>in French</i>)	129
Causes of Rabbit Mortality at Mankon Research Station, Cameroon (1983-1987) (<i>in English</i>)	165

Animal Nutrition

Effects of Phosphorus and Harvest Time on Dry Matter Yield, Nitrogen and Phosphorus Contents of Horsegram <i>Macrotyloma uniflorum</i> (<i>in English</i>)	73
Influence of the Browse Plant <i>Gliricidia sepium</i> Supplemented with Concentrate Feed on Food Intake and Growth of West African Dwarf Goat Kids (<i>in English</i>)	85

Chemical Composition of Selected Green Plants Available to Small Ruminants in the Dry Season in Humid Nigeria (<i>in English</i>)	115
Utilization of <i>Philiostigma reticulatum</i> (DC.) HOCHST. Pods and <i>Cajanus cajan</i> (L.) MILLSP. Leaves in Combination of Urea for Fattening Mossi Type and South Djallonke Sheep in Burkina (<i>in French</i>)	149
Animal Production	
Observation of an Outbreak of Equine Trypanosomiasis due to <i>Trypanosoma vivax</i> in urban environment in Senegal (<i>in French</i>)	35
An Assessment of the Impact of "The Structural Adjustment Programme" on the Poultry Industry in Nigeria (<i>in English</i>)	67
Influence of the Browse Plant <i>Gliricidia sepium</i> Supplemented with Concentrate Feed on Food Intake and Growth of West African Dwarf Goat Kids (<i>in English</i>)	85
Study of the Factors which can Favorise the Reproduction in Captivity of the Cricetomas, <i>Cricetomys</i> in Zaire (<i>in French</i>)	91
Chemical Composition of Selected Green Plants Available to Small Ruminants in the Dry Season in Humid Nigeria (<i>in English</i>)	115
Utilization of <i>Philiostigma reticulatum</i> (DC.) HOCHST. Pods and <i>Cajanus cajan</i> (L.) MILLSP. Leaves in Combination of Urea for Fattening Mossi Type and South Djallonke Sheep in Burkina (<i>in French</i>)	149
Appropriated Technology	
Larvivorous Potential of Different Stages of <i>Culex tigripes</i> (Diptera, Culicidae) in the Prospective of its Use in Biological Control of Malaria Vectors (<i>in English</i>)	13
Energy Use in Agriculture : an Empirical Note on Technical Development and Ecological Loading (<i>in English</i>)	118
Methane Fermentation of Cattle Manure : Effects of Hydraulic Retention Time, Temperature and Substrate Concentration (<i>in French</i>)	134
Bacteriology	
Biotypological Study of Boufrekane River -Morocco (<i>in French</i>)	94
Bibliography	38, 80, 122, 170
Biometry	
The Revival of Biometric Activities in the Zairean Agricultural Research (<i>in French</i>)	77
Cash Crops	
Relationship between Stimulating Paste Quantity and Production of <i>Hevea brasiliensis</i> in South-East of Ivory Coast (<i>in French</i>)	54
Effects of artificial light duration on vegetative growth of muskmelon <i>Cucumis melo</i> L. (<i>in French</i>)	106
The Point of a Breeding Programme for High Altitude Rice Growing in Burundi (1,300-1,700m) (<i>in French</i>) ...	141
Tunisian Cereal Sector : Growth and Structural Changes (<i>in French</i>)	160
Community Development	
Land Tenure Interests at Stake in Biodiversity Participative Management in the Niokolo Koba National Park Surrounding Region, Senegal (<i>in French</i>)	24
Energy Use in Agriculture : an Empirical Note on Technical Development and Ecological Loading (<i>in English</i>)	118
Ecology	
Amphibians as a component of sustainable development (<i>in English</i>)	34
Results of Fuelwood Consumption Survey in Kinshasa - Zaire (<i>in French</i>)	59
Biotypological Study of Boufrekane River - Morocco (<i>in French</i>)	94
Energy Use in Agriculture : an Empirical Note on Technical Development and Ecological Loading (<i>in English</i>)	118
Production Method for a Sustainable Management of Natural Resources (<i>in French</i>)	153
Economics	
Study on the Diversification of Farmers' Activities under Demographic and Land Pressure. The Case of Burundi (<i>in French</i>)	17
Land Tenure Interests at Stake in Biodiversity Participative Management in the Niokolo Koba National Park Surrounding Region, Senegal (<i>in French</i>)	24
An Assessment of the Impact of "The Structural Adjustment Programme" on the Poultry Industry in Nigeria (<i>in English</i>)	67
Energy Use in Agriculture : an Empirical Note on Technical Development and Ecological Loading (<i>in English</i>)	118
Production Method for a Sustainable Management of Natural Resources (<i>in French</i>)	153
Tunisian Cereal Sector : Growth and Structural Changes (<i>in French</i>)	160
Energy	
Results of Fuelwood Consumption Survey in Kinshasa - Zaire (<i>in French</i>)	59

Energy Use in Agriculture . an Empirical Note on Technical Development and Ecological Loading (<i>in English</i>)	118
Methane Fermentation of Cattle Manure : Effects of Hydraulic Retention Time, Temperature and Substrate Concentration (<i>in French</i>)	134
Environment	
Land Tenure Interests at Stake in Biodiversity Participative Management in the Niokolo Koba National Park Surrounding Region, Senegal (<i>in French</i>)	24
Amphibians as a component of sustainable development (<i>in English</i>)	34
Energy Use in Agriculture . an Empirical Note on Technical Development and Ecological Loading (<i>in English</i>)	118
Methane Fermentation of Cattle Manure : Effects of Hydraulic Retention Time, Temperature and Substrate Concentration (<i>in French</i>)	134
Production Method for a Sustainable Management of Natural Resources (<i>in French</i>)	153
Fertilizers	
Effects of Phosphorus and Harvest Time on Dry Matter Yield, Nitrogen and Phosphorus Contents of Horsegram <i>Macrotyloma uniflorum</i> (<i>in English</i>)	73
Methane Fermentation of Cattle Manure : Effects of Hydraulic Retention Time, Temperature and Substrate Concentration (<i>in French</i>)	134
Food Crops	
Effects of Phosphorus and Harvest Time on Dry Matter Yield, Nitrogen and Phosphorus Contents of Horsegram <i>Macrotyloma uniflorum</i> (<i>in English</i>)	73
Selection of New Varieties through Participatory Research, the Case of Corn in South Mali (<i>in English</i>)	100
The Point of a Breeding Programme for High Altitude Rice Growing in Burundi (1,300-1,700m) (<i>in French</i>)	141
Tunisian Cereal Sector : Growth and Structural Changes (<i>in French</i>)	160
Forestry	
Results of Fuelwood Consumption Survey in Kinshasa - Zaire (<i>in French</i>)	59
Hydrobiology	
Biotypological Study of Boufrekane River - Morocco (<i>in French</i>)	94
Methane Fermentation of Cattle Manure : Effects of Hydraulic Retention Time, Temperature and Substrate Concentration (<i>in French</i>)	134
Minilivestock	
Some Features of Silk-Producing Moths (<i>in English</i>)	30
Amphibians as a component of sustainable development (<i>in English</i>)	34
Study of the Factors which can Favorise the Reproduction in Captivity of the Cricetomas, <i>Cricetomys</i> in Zaire (<i>in French</i>)	91
Parasitology	
Comparative Effects of "Sodivermyl" Baird and the Bark of <i>Combretum</i> sp. in the Treatment of Chicken Nematods (<i>in French</i>)	4
Larvivorous Potential of Different Stages of <i>Culex tigripes</i> (Diptera, Culicidae) in the Prospective of its Use in Biological Control of Malaria Vectors (<i>in English</i>)	13
Observation of an Outbreak of Equine Trypanosomiasis due to <i>Trypanosoma</i> <i>vivax</i> in urban environment in Senegal (<i>in French</i>)	35
Study of the Factors which can Favorise the Reproduction in Captivity of the Cricetomas, <i>Cricetomys</i> in Zaire (<i>in French</i>)	91
Prevalance of Gastro-Intestinal Parasites and Snail Inventory in the High- Plateaus of Uvira, Eastern Zaire (<i>in French</i>)	129
Plant Pathology	
Comparison of Different Pesticide Treatments of Cotton seed in Burundi and in Greece (<i>in French</i>)	45
Plant Production	
Cotton Weeds and Study of a Chemical Cotton Weeding System in Burundi (<i>in French</i>)	6
Study on the Diversification of Farmers' Activities under Demographic and Land Pressure. The Case of Burundi (<i>in French</i>)	17

AGRI-OVERSEAS, asociación sin ánimo de lucro (ASBL) creada con el fin de establecer relaciones profesionales de intereses comunes entre quienes laboran por el desarrollo rural en ultra-mar.
Agri-Overseas publica una revista científica y de información "**TROPICULTURA**" consagrada a los problemas rurales en los países en desarrollo, la cual es editada trimestrialmente por la Administración General de la Cooperación para el Desarrollo (A.G.C.D.).

Organización: Agri-Overseas se compone de instituciones belgas: las cuatro Facultades de Ciencias agronómicas (Gembloux, Gante-RUG, Lovaina-KUL y Lovaina la Nueva-UCL), las dos Facultades de Medicina veterinaria (Gante y Lieja), el Departamento de Producción y salud animales del Instituto de Medicina Tropical de Amberes (Antwerpen), la Sección interfacultaria de Agronomía de la Universidad Libre de Bruselas, las Facultades universitarias Nuestra Señora de la Paz (Namur) y la Fundación universitaria de Luxemburgo (Arlon), la Administración General de la Cooperación para el Desarrollo y de algunos miembros individuales.

Consejo de Administración: Actualmente está compuesto de un Presidente, el Profesor Dr. J. Vercruysse, un Administrador delegado, Dr. Ir. G. Mergeai, un Secretario, Dr. E. Thys, un Tesorero, Profesor Dr. P. Kageruka, y de dos miembros, el Profesor honorario Dr. Ir. J. Hardouin y el Profesor Dr. C. Reizer.

Comité de redacción: Está constituido actualmente de dos jefes de redacción, el Profesor honorario Dr. Ir. J. Hardouin y el Dr. Ir. G. Mergeai y de redactores delegados, el Profesor Dr. Ir. P. Van Damme para el rubro "Agronomía y Forestería", el Profesor Dr. J. Vercruysse para "salud animal", el Profesor Dr. A. Verhulst para "producción animal y caza" y el Profesor Dr. Ir. C. Reizer para "pesca y piscicultura".
El secretariado tratará temas tales como la economía, la sociología, etc.

Secretaría - Redacción: Agri-Overseas / Tropicultura, c/o A.G.C.D., Rue Brederode 6, B-1000 Bruselas, Bélgica. Teléfono 32.2/51 90 476.

Distribución: gratuita según petición escrita.

Instrucciones para los autores

Condiciones generales:

Los manuscritos (original y tres copias) serán enviados a Agri-Overseas a la dirección arriba indicada. Estos pueden ser escritos en uno de los cuatro idiomas siguientes: Francés, Inglés, Neerlandés y Español. Indicar claramente la dirección del autor. Presentar la traducción inglesa del título. El Comité de redacción someterá el texto a dos lectores, especialistas del tema tratado y será eventualmente devuelto al autor, para ser corregido o adaptado. De todos modos se guardará un ejemplar en los archivos de Agri-Overseas. Los autores recibirán gratuitamente 20, publicados separadamente del artículo.

Instrucciones prácticas: el manuscrito comprenderá como máximo 10 páginas escritas a máquina con doble interlinea y con margen a la izquierda de 5 cm en papel blanco de formato DIN A4 (21 x 29.7 cm).

Presentación:

Título: corto y en minúsculas

Autores: debajo del título. Los apellidos en minúsculas para las iniciales del nombre (nombre completo para las damas), con asterisco para remitir a la nota en pie de página donde figurará la identificación de las instituciones.

Palabras claves: 7 como máximo en Inglés (Key words)

Resumen: en el idioma del artículo y en Inglés (Max. 200 palabras)

Introducción

Material y métodos u observaciones

Resultados

Discusión

Conclusiones

Agradecimientos

Las referencias bibliográficas se darán por orden alfabético según el apellido de los autores y serán numeradas de 1 a x. Referir en el texto a estos números (entre paréntesis).

Las referencias comprenderán:

- Para las revistas: el apellido de los autores seguido de las iniciales de los nombres, el año de publicación, el título completo del artículo en el idioma de origen, el título de la revista, el número del volumen subrayado, la primera y la última página.

Ejemplo: Poste G., 1972, Mechanisms of virus induced cell fusion Int. Rev. Cytol. 33, 157-222.

- Para las obras: el apellido de los autores seguido de las iniciales de los nombres, el año de publicación, el título completo de la obra, el nombre del editor, el lugar de edición, la primera y la última página del capítulo citado.

Ejemplo: Korbach M.M. & Ziger R.S., 1972, Heterozygotes detection in Tay-Sachs disease. A prototype community screening program for the prevention of recessive genetic disorders. pp 613-632 in: B.W. Volks en S.M. Aronson (Editors), Sphingolipids and allied disorders Plenum, New York.

Tablas y figuras estarán presentadas cuidadosamente en páginas separadas y con numeración arábiga al verso. Las figuras estarán dibujadas de modo profesional. Las fotografías se entregarán non-montadas u bien contrastadas sobre papel brillante y numeradas a verso. Los títulos y las leyendas se escribirán en una misma página separada.

Observaciones:

- Evitar las notas al pie de la página
- Evitar el empleo de guiones
- Evitar las mayúsculas inútiles
- Dar la nacionalidad, los diplomas, y la función de cada autor
- Dar la traducción del título en Inglés

- La Comisión de Redacción se reserva el derecho de rehusar todo artículo que no esté conforme a las prescripciones susodichas.
