Index Subjects

Agricultural techniques

- Effects of tillage and no-tillage with nitrogen nutrition on maize yield (var Shaba I) (*in French*) 16
 An example of agro-forestry in Rwanda (*in French*) 104

Agrostology

- Requirements of *Stylosanthes guianensis* (Aubl) Sw in lower Ruzizi and Mosso (Burundi) (*in French*) 50

Animal production

- Village herds characteristics of Djakoré cattle type in Eastern Senegal (*in French*) 10
 Clinical signs associated with Vitamin A deficiency in a Moroccan dairy farm (*in French*) 44
 On the rational exploitation of the Aulacode — a thryonomid rodent — in the People's Republic of Benin. Preliminary data (*in French*) 56
 Research for a barymetrical formula suitable to Djakoré cattle type in village herds from eastern Senegal (*in French*) 86

Bibliography

40 - 80 - 119 - 164

Cash crops

- Effects of tillage and no-tillage with nitrogen nutrition on maize yield (var Shaba I) (*in French*) 16
 Fungal diseases of cucurbits in the Tunisian Sahel: inventory, importance and agronomical consequences (*in French*) 123

Cattle

- Village herds characteristics of Djakoré cattle type in Eastern Senegal (*in French*) 10
 The development of dairy co-operatives in India (*in French*) 29
 Clinical signs associated with Vitamin A deficiency in a Moroccan dairy farm (*in French*) 44
 Research for a barymetrical formula suitable to Djakoré cattle type in village herds from eastern Senegal (*in French*) 86
 Diagnosis of *Campylobacter fetus venerealis* infection on-bulls in the Shaba region, Zaïre (*in French*) 138

Community development

- The development of dairy co-operatives in India (*in French*) 29
 Rural development based on management sub-centres. The example of Musambira (Rwanda) (*in French*) 141
 Sanitary conditions in the working area of the social project "Chim Shaullo" during the period of February to May 1984 (*in French*) 155

Economics

- The development of dairy co-operatives in India (*in French*) 29
 Pseudo-options in rural development (*in French*) 41
 Organization and economical significance of an irrigation project. The case of the Pisque project in Ecuador (*in Spanish*) 60
 Regional specialization a face behind the development of Burundi (*in French*) 99

Editorials

- For a better agricultural research in the developing countries (*in French*) 1
 Pseudo-options in rural development (*in French*) 41
 The African food crisis and Belgian agricultural research support (*in English*) 81
 Water in a sieve (*in French*) 121

Education

- Original education in agronomical sciences at three levels in Cameroon (*in French*) 34

Fertilizers

Effects of tillage and no-tillage with nitrogen nutrition on maize yield (var Shaba I) (<i>in French</i>)	16
Considerations in agricultural research with special reference to the use of fertilizers under tropical conditions (<i>in French</i>)	26

Fisheries

The culture of <i>Tilapia</i> species in tropical and subtropical conditions (<i>in English</i>)	19
Directing plan for the development of the freshwater fisheries in Ivory Coast (<i>in French</i>)	70

Fodder

Requirements of <i>Stylosanthes guianensis</i> (Aubl) Sw in lower Ruzizi and Mosso (Burundi) (<i>in French</i>)	50
The influence of propagating material on growth and production of Job's tears plants (<i>in French</i>)	95

Food crops

Water consumption of a tomato crop under polyethylene greenhouse in Tunisia (<i>in French</i>)	3
Effects of tillage and no-tillage with nitrogen nutrition on maize yield (var Shaba I) (<i>in French</i>)	16
The influence of propagating material on growth and production of Job's tears plants (<i>in French</i>)	95
Yearly cultivated surfaces required for self sufficiency of a refugees family in northeastern Zaïre (<i>in French</i>)	107

Forestry

An example of agro-forestry in Rwanda (<i>in French</i>)	104
------------------------------------------------------------	-----

Health

An integrated development project as seen by a nurse (<i>in French</i>)	67
Nutrition and development (<i>in English</i>)	132
Sanitary conditions in the working area of the social project "Chim Shaullo" during the period of February to May 1984 (<i>in French</i>)	155

Interviews

73

Irrigation

Organization and economical significance of an irrigation project. The case of the Pisque project in Ecuador (<i>in Spanish</i>)	60
------------------------------------------------------------------------------------------------------------------------------------	----

Letters	39 - 78 - 118 - 161
----------------	---------------------

Meetings	74 - 111 - 157
-----------------	----------------

Message	163
----------------	-----

News	36 - 75 - 116 - 158
-------------	---------------------

Nutrition

Clinical signs associated with Vitamin A deficiency in a Moroccan dairy farm (<i>in French</i>)	44
The African food crisis and Belgian agricultural research support (<i>in English</i>)	81
Nutrition and development (<i>in English</i>)	132

Pig

Study of abscesses of pigs in two farms near Lubumbashi (<i>in French</i>)	82
------------------------------------------------------------------------------	----

Plant pathology

Fungal diseases of cucurbits in the Tunisian Sahel inventory, importance and agronomical consequences (<i>in French</i>)	123
----------------------------------------------------------------------------------------------------------------------------	-----

Projects

Considerations in agricultural research with special reference to the use of fertilizers under tropical conditions (<i>in French</i>)	26
Organization and economical significance of an irrigation project. The case of the Pisque project in Ecuador (<i>in Spanish</i>)	60
Regional specialization a face behind the development of Burundi (<i>in French</i>)	99
Rural development based on management sub-centres. The example of Musambira (Rwanda) (<i>in French</i>)	141

Research and development

For a better agricultural research in the developing countries (<i>in French</i>)	1
Considerations in agricultural research with special reference to the use of fertilizers under tropical conditions (<i>in French</i>)	26
Pseudo-options in rural development (<i>in French</i>)	41
Nutrition and development (<i>in English</i>)	132

Rural engineering

Water consumption of a tomato crop under polyethylene greenhouse in Tunisia (<i>in French</i>)	3
Organization and economical significance of an irrigation project. The case of the Pisque project in Ecuador (<i>in Spanish</i>)	60
A surprising pump: the hydraulic ram (<i>in French</i>)	91

Selection

The influence of propagating material on growth and production of Job's tears plants (<i>in French</i>)	95
-----------------------------------------------------------------------------------------------------------	----

Statements

The development of dairy co-operatives in India (<i>in French</i>)	29
Original education in agronomical sciences at three levels in Cameroon (<i>in French</i>)	34
An integrated development project as seen by a nurse (<i>in French</i>)	67
Directing plan for the development of the freshwater fisheries in Ivory Coast (<i>in French</i>)	70
An example of agro-forestry in Rwanda (<i>in French</i>)	104
Yearly cultivated surfaces required for self sufficiency of a refugees family in northeastern Zaïre (<i>in French</i>)	107
Sanitary conditions in the working area of the social project "Chim Shaullo" during the period of February to May 1984 (<i>in French</i>)	155
National parks, one of the African's most positive and effective achievements (<i>in French</i>)	150

Veterinary medicine

Clinical signs associated with Vitamin A deficiency in a Moroccan dairy farm (<i>in French</i>)	44
Study of abscesses of pigs in two farms near Lubumbashi (<i>in French</i>)	82
Diagnosis of Campylobacter fetus venerealis infection on bulls in the Shaba region, Zaïre (<i>in French</i>)	138
Defining the objectives of the training of veterinary agents: an essential act to create an efficient pedagogical tool	127

Wildlife

On the rational exploitation of the Aulacode — a thryonomid rodent — in the People's Republic of Benin Preliminary data (<i>in French</i>)	56
National parks, one of the African's most positive and effective achievements (<i>in French</i>)	150
