

INDEX

Index Subjects**Agricultural techniques**

- New technologies about ground improvements and thoughts on their economical repercussions (*in French*) 26
 Observations on germination of Phytolaque seeds (*Phytolacca dodecandra, l'Herit*) (*in French*) 63

Animal health

- Approach to integrated rural development and to reclamation of areas free or to be freed from trypanosomiasis (*in French*) 34
 Prophylactic measures against African swine fever at Kounden. Cameroon (*in French*) 78

Animal production

- Two FAO regional projects for livestock development in the tse-tse infested areas(*in French*) 65
 Small ruminants husbandry in traditional flocks in Cameroon
 First part: Productivities (*in French*) 103
 Possibilities of integrated animal production (*in French*) 113
 Aspects of American farming in subtropical environment: North Texas (*in French*) 118
 Wings clipping of fowls (*in French*) 165

Aquaculture

- General survey of inland fisheries and aquaculture in the state of Sao Paulo, Brazil (*in French*) 47
 Possibilities of integrated animal production (*in French*) 113

- Bibliography** 42, 83, 127, 172

Birds

- Wings clipping of fowls (*in French*) 165

Cash crops

- Maize's response to fractionnated application of urea nitrogen in edaphoclimatic conditions of Yangambi (Zaire) (*in French*) 7
 Phytosanitary produces in vegetable crop in Morroco. I. The market in plant-health products, its legal framework and its economic content (*in French*) 57
 Pesticides in vegetable crops of Morocco.
 II. Application methods and problems encountered (*in French*) 94
 Effect of magnesium and trace elements on the development of five groundnut varieties (*Arachis hypogaeae* L.) (*in French*) 99
 The influence of organic and calcareous amendements on yield of groundnut produced on acid degraded soils, in Senegal(*in French*) 147

Community development

- Some data about the zone of Aru (Ituri-Zaire) (*in French*) 19
 How to integrate in Peru a non-governmental co-operation project within the framework of an agricultural enterprise ? (*in French*) 107

Ecology

- Man and animal, hunger and development (*in French*) 11
 Impressions from South-West Uganda (*in English*) 31
 Technical and social constraints for maintenance of soil and water in highly populated zones: the example of Mumirwa's mountains in Burundi (*in French*) 137
 Agro-ecological zones: The development of a regional classification scheme for Rwanda (*in English*) 153
 Catching techniques and observations on the ecology and the behaviour of the African giant rat *Cricetomys*, in the rain forest of Zaire(*in English*) 160

Economics

New technologies about ground improvements and thoughts on their economical repercussions (<i>in French</i>)	26
Phytosanitary produces in vegetable crop in Morocco. I. The market in plant-health products, its legal framework and its economic content (<i>in French</i>)	57
How to integrate in Peru a non-governmental co-operation project within the framework of an agricultural enterprise ? (<i>in French</i>)	107

Editorials

Developing a research strategy to increase food production in sub-saharan Africa (<i>in English</i>)	1
Economic European Community and research in tropical agriculture (<i>in French</i>)	45
Development to co-development (<i>in French</i>)	85
Five years later (<i>in French</i>)	129

Education

Integration of a veterinary teaching project in the rural development of a valley in Sri Lanka (<i>in English</i>)	69
A model for setting up a new department of statistics or biometry in a developing country (<i>in English</i>)	110
Training centres for young farmers (CFJA) (<i>in French</i>)	122

Fertilizers

Maize's response to fractionated application of urea nitrogen in edaphoclimatic conditions of Yangambi (Zaire) (<i>in French</i>)	7
Effect of magnesium and trace elements on the development of five groundnut varieties (<i>Arachis hypogaeae</i> L.) (<i>in French</i>)	99
The influence of organic and calcareous amendments on yield of groundnut produced on acid degraded soils, in Senegal (<i>in French</i>)	147

Fisheries

General survey of inland fisheries and aquaculture in the state of Sao Paulo, Brazil (<i>in French</i>)	47
Possibilities of integrated animal production (<i>in French</i>)	113

Food crops

Determination of some chemical constituents of seeds of three <i>Psophocarpus tetragonolobus</i> cultivars (<i>in French</i>)	3
Maize's response to fractionated application of urea nitrogen in edaphoclimatic conditions of Yangambi (Zaire) (<i>in French</i>)	7
Phytosanitary produces in vegetable crop in Morocco. I. The market in plant-health products, its legal framework and its economic content (<i>in French</i>)	57
Pesticides in vegetable crops of Morocco.	
II. Application methods and problems encountered (<i>in French</i>)	94
Study of the influence of cutting and picking of leaves on the quality of cassava tuber (<i>Manihot esculenta</i> Crantz cv. "F 46") (<i>in French</i>)	133
